

Name: _____ Date: _____

Teacher/Period: _____ Final Grade: _____ / 100

Find the Unknown Whole Number

Question 1 (Short Answer)

_____ / 10

What number makes this equation true? $8 + ? = 11$

Answer:

Question 2 (Short Answer)

_____ / 10

What is the missing number in the following equation: $? + 5 = 10$
Answer:

Question 3 (Short Answer)

_____ / 10

Fill in the blank. $4 + ? = 13$

Answer:

Question 4 (Short Answer)

_____ / 10

Consider the following equation. $? + 7 = 11$. What number would go in place of the question mark?

Answer:

Question 5 (Short Answer)

_____ / 10

What would be the number to make this equation true? $10 + ? = 15$

Answer:

Question 6 (Short Answer)

_____ / 10

What is the missing number in the following equation: $12 = ? - 3$
Answer:

Question 8 (Short Answer)

_____ / 10

What's the unknown number in this equation? $? - 4 = 7$

Answer:

Question 9 (Short Answer)

_____ / 10

What number would make this equation true? $? - 6 = 10$

Answer:

Question 7 (Short Answer)

_____ / 10

Consider the following equation.
 $15 = ? - 2$. what would go in place
of the question mark?

Answer:

Question 10 (Short Answer)

_____ / 10

What is the unknown number in
the following equation: $15 = ? - 8$

Answer:

Answer Key for Find the Unknown Whole Number

1: 3

2: 5

3: 9

4: 4

5: 5

6: 15

7: 17

8: 11

9: 16

10: 23
